mce in ubuntu need a little help !grub ! egtdk egtdk: GRUB2 is the default Ubuntu boot manager since 9.10 (Karmic). Lost GRUB after installing Windows? See - For more information and troubleshooting for GRUB2 please refer to - See!grub1 for releases before Karmic (9.10) egtdk, what do you need? I want to add a network printer through the printer applet, it is an ipp printer, i know that so how can I do that? egtdk: depends on your printer, but do it on windows and then use the cups package to import it into ubuntu it's a hp laserjet 2000-z Quidquid Latro canali? Are you still having some issues in my previous posting? sveinse: you are the only one in #radeon, go to #radeon please sveinse; also don't assume channel ops follow links of #ubuntu-ops arghx: Yep, I just posted to #radeon #ubuntu-ops I've set the topic there how to install ubuntu to usb? I just using USB, it's not installed... arghx: Yeah, that is why I said canali, not #radeon. I've been there and the bot told me to come here (believe me, I'm not at all religious about this). NolanHe: ubuntu.com arghx: what do you mean? sveinse: still #radeon !usb ! NolanHe NolanHe: For information about installing Ubuntu from USB flash drives, see 82157476af
